

A Testimonial

My impression of the services provided by Crossroads:

Speaking as a pastor who has used the services in two very different congregations, the first thought that comes to my mind is *gospel-centered*. From start to finish, the services of Crossroads are focused on the cross, on the saving message of Jesus Christ, and on how to get more people more deeply connected to that message more often. It is that good news that is the driving motivation and the goal of all the efforts they put in for us and our ministry.

Secondly, the word that comes to mind is *comprehensive*. This is not a canned program that pigeon-holes congregations into a certain mold that does not fit their context or ministry. The fact is, it is not a *program* at all, but rather a process that is shaped and molded by the unique ministry setting and needs of each individual congregation. It enabled us to take a step back and see the big pictures of who we are in the light of God's grace at this time and place in history, where we might go under His hand of blessing, and how we can equip the saints with the gospel to get there.

My impression of Pastor Stroh:

A humorous and engaging servant of Jesus who has the gifts to help people see what they need to see under the light of Scripture. Pastor Stroh has the experience to help any congregation, and the humility to win their hearts to accept his input. He's a knowledgeable man with a servant's heart.
